SUMMARY

Full Stack Developer competitive programmer with experience building scalable MERN stack apps and AWS cloud-native CI/CD pipelines. Ranked **Worldwide Rank 827** on LeetCode (500+ problems solved); **Codeforces Specialist** (300+ problems). B.Tech CS-AI student at IET Lucknow with **9.12 CGPA**.

EXPERIENCE

Full Stack Developer

Nov 2025 – Jan 2026

TakeTwo

Remote

- Delivered **5+ responsive MERN stack features** ensuring cross-device compatibility across mobile and desktop, improving user interface accessibility for **100%** of target screen sizes.
- Architected and deployed **10+ RESTful API endpoints** with MVC routing, controllers, and middleware, cutting average API integration time for frontend developers by **30%**.
- Implemented end-to-end authentication and authorization using **JWT tokens** and **bcrypt** password hashing, securing session management for all registered users.

PROJECTS

My-GPT | *React.js, Node.js, Express.js, MongoDB, OpenAI API, JWT, ImageKit, AWS* | [Live](#) | github.com/abhiyadav05

- Engineered a full-stack real-time AI chat and image generation platform integrating **OpenAI GPT and DALL-E APIs**, supporting **concurrent multi-user sessions** with dynamic content rendering.
- Designed **JWT and cookie-secured REST APIs** with bcrypt-based authentication using Express.js and MongoDB, achieving **zero authentication vulnerabilities** in production deployment.
- Integrated **ImageKit CDN** for scalable AI-generated image storage, reducing image load time by **40%**; implemented syntax-highlighted chat responses using Prism.js for **15+ programming languages**.

Hostly | *AWS (S3, ECR, ECS, EC2), Docker, Express.js, Reverse Proxy, GitHub API* | github.com/abhiyadav05

- Built an **automated CI/CD deployment pipeline** ingesting GitHub repository URLs and deploying to live production servers, reducing manual deployment effort by **100%**.
- Containerized build processes with **Docker**; pushed images to **Amazon ECR** and orchestrated deployments via **Amazon ECS**, achieving a scalable and fault-tolerant production environment.
- Developed a **reverse-proxy server** to securely serve S3-hosted static build outputs, enabling production-ready deployments with **sub-second routing** for end users.

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript, TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, Tailwind CSS, REST APIs

Databases: MongoDB, MySQL, SQL, NoSQL

Cloud & DevOps: AWS (S3, EC2, ECS, ECR, Lambda, IAM), Docker, CI/CD, Vercel

Tools & Platforms: Git, GitHub, Postman, VS Code, Linux

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, System Design (LLD & HLD), Distributed Systems

EDUCATION

Institute of Engineering and Technology (IET Lucknow)

Lucknow, UP, India

B.Tech – Computer Science in Artificial Intelligence | **CGPA: 9.12 / 10**

Sep 2023 – Jun 2027

Government Polytechnic Bijnor

Bijnor, UP, India

Diploma – Computer Science & Engineering | **82%** | **Gold Medalist**

Oct 2021 – Jul 2024

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- **Codeforces** Specialist Max Rating **1415** | **Global Rank 1861** in Round 1037 Div. 3 (25,000+ contestants) | **300+ problems** solved.
- **CodeChef** 3-Star Peak Rating **1658** | **International Rank 211** in Starters 224 (17,000+ candidates) | **200+ problems** solved.
- **LeetCode** Rating **1626** | **Worldwide Rank 827** in Biweekly Contest 165 (31,000+ participants) | **500+ problems** solved across all difficulty levels.
- **Gold Medalist** Diploma in Computer Science & Engineering, awarded for academic excellence.
