PROFESSIONAL SUMMARY

Full Stack Developer skilled in building scalable MERN applications, robust backend APIs, and deploying solutions on **AWS**. Highly hardworking, goal-oriented, and focused on continuous improvement.

SKILLS SUMMARY

- **Languages:** C/C++, Java, Python, JavaScript, MySQL, HTML, CSS
- **Frameworks & Libraries:** ReactJS, NodeJS, ExpressJS, MongoDB, NumPy, Pandas
- **Cloud & DevOps:** AWS (S3, EC2, ECS, Lambda, IAM), Vercel
- **Tools:** Git, GitHub, Docker, Postman, VS Code
- **Core CS:** Data Structures & Algorithms, OOP, OS, Computer Networks, System Design (LLD, HLD)

PROJECTS

- **My-GPT (ChatGPT-Inspired)** | [Live](#) | [GitHub Repository](#)
 - Technologies Used: React, Tailwind CSS, Express.js, MongoDB, OpenAI API, ImageKit, PrismJS.
 - Built a **full-stack** real-time **chat and AI image generation** web application driven by **prompt-based AI interactions**. Designed and implemented **JWT-secured REST APIs** with **bcrypt**-based authentication using **Node.js, Express.js, and MongoDB** to manage users, sessions, and messages securely. Integrated **ImageKit** for image storage, and developed a responsive **React** frontend with syntax-highlighted, formatted responses using **Prism.js**.
- **Hostly (Vercel-Inspired)** | [GitHub Repository](#)
 - Technologies Used: ExpressJs, Docker, EC2, ECS, S3, JavaScript, git.
 - Built an automated deployment platform that takes **GitHub URLs**, and clone it, builds assets via an **Express.js** server, and uploads them to **S3**. **Docker images** are pushed to **ECR** and deployed with **ECS**, while a **reverse-proxy server** securely serves S3-hosted assets to a client-facing server, production-ready deployments.
- **Food Video Streaming Platform (Backend)** | [GitHub Repository](#)
 - Technologies Used: Node.js, Express.js, MongoDB, Cloudinary, JWT, bcryptjs
 - Developed a **scalable Node.js backend** for a video-based food platform featuring **JWT-secured authentication** for Users and Food Partners, **RESTful APIs** for account management and food uploads, well-structured **MongoDB data models**, **bcryptjs-based password encryption**, and **Cloudinary integration** for optimized video storage, delivery, and streaming via secure URLs.

EDUCATION

- **Institute of Engineering and Technology, Lucknow** | Lucknow, U P, India
B.Tech. - Computer Science In Artificial Intelligence | *C.G.P.A.: 9.12/10* | *Sep 2023 - Jun 2027*
- **Government Polytechnic, Bijnor** | Bijnor, U P, India
Diploma in Computer Science and Engineering | *Percentage : 82/100* | *Oct 2021 - July 2024*

ACHIEVEMENTS

- Achieved **3 Stars** on CodeChef
- Global Rank - **842** in CodeChef Starters 195 Division 3 [🔗](#)
- Global Rank - **1009** in CodeChef Starters 189 Division 3 [🔗](#)
- Achieved **Pupil** at Codeforces
- Global Rank - **1861** in Codeforces Round 1037 (Div. 3), out of **25,000+** participants [🔗](#)
- Solved **850+** problems across LeetCode, Codeforces, and CodeChef (450+ on LeetCode)
- Global Rank - **827** in LeetCode Biweekly Contest 165 over **31,000+** participants [🔗](#)
- **Gold Medalist** in Diploma CSE Program
